Published by Concrete Publications Ltd., 20 Dartmouth Street, London, S.W.1

INDEX to VOL. VI, 1933.

	PAGE		PAGE
Air separation, Formulae for the control of, by A. B. Helbig	125	Schachtschabel, P., on Action of CaCO_3 on ground clinker, 54; on Changes in the setting time of Portland cement, 77; on Formation of hydrates of CaSO_4 in grinding cement...	285
" separation, Mechanical	308	Spohn, E., on Maximum lime content of Portland cement	246
" Separator, by A. B. Helbig	233	Starke, H. R., H. Woods, and H. H. Steinour, on Effect of composition of Portland cement on heat evolved during hardening	161
Aluminate, The hydration of tricalcium, by W. D. Foster...	97	Suenson, E., on Tensile strength of fused cement after ten years' hardening	326
Atmosphere, Effect of storing cement in the, by V. M. Anzlovat	341	Wenzel, F., on Nomogram for mixing raw meal...	220
Australian cement company's report, An	34	Whitworth, F., on "False" set of cement...	179
AUTHORS :		Woods, H. H. R. Starke, and H. H. Steinour, on Effect of composition of Portland cement on heat evolved during hardening...	161
Akiyama, Keiichi, on Facility of burning Portland cement	17	Zollinger, R., on Practical developments to be anticipated in the cement industry	361
Anzlovat, V. M., on Effect of storing cement in the atmosphere	341	Bags for packing cement, Testing paper, by G. Haegermann	35
Basso, J., on Effect of sugar on mortars	259	Belgian cement company's report	16, 76
Bates, P. H., and E. T. Carlson, on Chemical analyses of the particles of various sizes of ground cement	105	Belgian Congo	16
Bessey, G. E., on Free lime in Portland cement	297	Belgium, Cement production in	72
Czernin, Count, on Modification and calibration of Kuhl's sedimentation apparatus	1	BOOK REVIEWS :	
Davis, A. C., on Chemistry of cement, 208; on Compression and transverse tests of Portland cement	57	Chemistry and Physics of Clays and Other Ceramic Materials, by A. B. Searle	307
Dorsch, K. E., on The hardening and corrosion of cement	45, 131, 171, 271	Chemistry of Portland Cement from the Point of View of Complex Chemical Compounds, by Lemaert Forsen	215
Fauner, J., on Refractory material for cement rotary kilns	113	Hydrated Calcium Aluminates and their Double Salts, by C. R. W. Mylius	178
Foster, W. D., on The hydration of tricalcium aluminate	97	La Chimica del Cemento. Part I. Il Cemento Portland, by Quirino Sestini	342
Frey, O., on Comparison of the rotary kiln and the high-capacity shaft kiln employing the new burning process	321	Zement Kalender, 1933	38
Gilbert, Wm., on Heat transmission in rotary kilns	70, 189, 262, 327, 369	Brasil, Cement manufacture in	72
Haegermann, G., on Testing paper bags for packing cement	35	Burning Portland cement, Facility of, by K. Akiyama	17
Helbig, A. B., on Formulae for the control of air separation, 124; on The air separator	233	" process, Comparison of the rotary kiln and the high-capacity shaft kiln employing the new, by O. Frey	321
Howe, W. T., on Rotary kiln heat balance, 149, 237, 289; on Rotary kiln exit gases—some relationships	343	Calcium silicates	307
Marchner, W., on Detection and determination of free lime in cement	44	" silicates, Studies on hydrothermal synthesis with pressure of, by S. Nagai	313
Martin, Henri, on Influence of phosphorus in the raw materials for cement manufacture...	111	Canada, Cement production in	34, 72
Meier, F. W., on Rapid determination of hydraulic factors of cement and raw materials, by F. W. Meier, 82; on Determination of silica	32	CaSO_4 in grinding cement, Formation of hydrates of, by P. Schachtschabel	285
Nagai, S., on Studies on hydrothermal synthesis with pressure of calcium silicates	313	" on ground clinker, Action of, by P. Schachtschabel	54
Platzmann, C. R., on International dictionary of cement	93, 127, 181, 248, 286, 305, 328, 395	Cement, Chemical analyses of the particles of various sizes of ground, by E. T. Carlson and P. H. Bates	105
